Tom – you are correct. We anticipate sending out revisions to these with Section 2 text next week. We appreciate all the help from Mike and Jennifer on revising these to ensure what is sent to the LWG is of high quality.

Kristine-

After your discussions with Burt and Jennifer Peterson yesterday, I understand that some of the materials you sent out in the email below will be revised. DEQ will provide comments on these PRG derivation documents after we receive and review the new/revised documents.

Thanks-
Tom

All -

Attached for your review is a draft of the risk-based PRGs text for Appendix A of the FS. You will see that there are a few questions or notes in comment bubbles. Also attached is the table file providing the three tables referenced in the draft text. Finally, we have provided the PRG table file from which the RBT tables were derived for your reference and to facilitate your review. The need for proper formatting and further clarity and/or grammatical corrections is still necessary, but the information is sufficient info for the TCT to review. We ask that you review the attached documents and provide any comments within 30-days, or by July 16.

(b) (6). If you have any questions regarding this information, please contact Elizabeth Allen or Burt Shephard (since they are the EPA experts for these two documents).

Thanks,

Kristine Koch
